

Bridalveil Creek Campground may not be available early in the summer due to flooding due to late melting snow. Also, if there is a fire in the area the fire fighters may be staging out of the campground. If for some reason the campground is not available we will be provided with an alternate camping area.

Here are some maps to help you get to Bridalveil Creek Campground and Glacier Point.

We set up camp in Loop C. The campsites will be marked with a sign reserving it for park volunteers.
